SUBJECT: Notification of Cryptographic Clearance --

25X1A9a

1. Subject employee has been granted a cryptographic clearance effective 4 February 1955 this date (or _____)

2. Subject has been informed of the granting of clearance and has been briefed concerning cryptographic and related communications security matters.

3. A cryptographic clearance is not a permanent clearance. It will be revoked immediately should the employee fail to maintain the security standards prescribed in CIA Regulation _____. It may also be revoked because of lack of need or for appropriate administrative or technical communications security reasons.

4. An individual holding a CIA cryptographic clearance is authorized to have custody, access to, or knowledge of staff cryptographic material or information only to the extent necessary for the performance of his official duties. A cryptographic clearance alone does not constitute authorization to perform cryptographic duties without the prior approval of the Assistant Director for Communications.

5. When Subject employee no longer requires the clearance because of a change in assignment or duties (e.g. return from overseas assignment, replacement as acting communicator) it is requested that the Communications Security Division (2411 I Building, ext. 3021) be notified so that the clearance may be revoked.
